Caring for your cashflow: Weekly Pay

Amidst cost-of-living pressures, everyone is feeling the pinch. That's why we will pay you weekly, to keep your cash flowing. We also offer salary sacrificing to reduce your taxable income such as superannuation contributions or the purchase of tools and equipment for business use.

How much and how fast can I get access?

If you choose to 'opt in' to our Contractor Benefits Program, you will be charged a service fee calculated as 1.5% of your gross hourly/daily pay rate during the period you work with us. The service fee will be subtracted from your weekly payment amount, meaning you will only pay for the hours you work. You will gain access to all benefits under this program on the commencement of your assignment and throughout your journey with us while making CBP contributions.

For PAYG Temporary Workers covered under a modern award, your pay will be processed in accordance with the payment frequency specified in your award. Your decision to opt in or opt out of the Contractor Benefits Program will not affect the legal requirements under your award. In choosing the right decision for you, you need to consider your personal and financial circumstances. We strongly recommend that you obtain your own independent financial and tax advice before you determine the most suitable option for you.
